

DF Smart All In One

The **DF Smart All In One** is an advanced version of the classic Generac Mobile's DF Smart model, designed for all customers who need a complete solution for dust control and sanitization in industrial or civil areas where water connection is not available or easy to reach, or to be installed on a truck joined to a generating set. The **DF Smart All In One** combines the powerful features of the DF Smart with a capacious water tank and a reliable electric pump. You just need to connect the unit to an external power source to be ready to work immediately.

Standard Equipment

- Stainless steel crown with nozzles
- Plastic water tank
- Galvanized protection bars
- Water filter
- Electric pump
- Electric engine (fan)
- Manual rotation
- Manual tilting
- Forklift pockets on all sides
- Emergency stop button

Options

- Plastic box for documents
- Customized colour (RAL)
- 10m electrical cable with Schuko plug
- 110V kit

Picture shown may not reflect actual configuration.
