

MT1 light tower

The smallest mobile lighting tower equipped with built-in generator, the **MT1** has been developed with the specific intent to be easily handled by a single operator, making it an ideal solution for illuminating small to medium sized working areas.

Easy handling

The front steering handle combined with four wheels and a light weight ensure a large turning radius and easy transportation.

Lamp options

Choose the lamp type you prefer between the innovative **4x240W LED** floodlights or the new **400W UFO LED** lamp.

Trailer options

The MT1 can also be equipped with a **road trailer** with lights, brakes and documents for EU road homologation.
